Case called for status/settlement conference. There is a  
motion for summary judgment pending.

Attorney for plaintiff states that he was just informed that  
defendant wants to have plaintiff evaluated by four different  
doctors. He strongly opposes since the time for this has elapsed  
and at this stage is not justified.

Attorney Ruiz Pabon answers that they have cooperated in  
everything and plaintiff has deposed over thirty persons. They  
represent a public corporation and are dealing with public funds  
and it is very difficult to coordinate everything and to justify  
it. Now they have the authorization and the contracts with the  
experts all they need to do is have plaintiff here.

Court grants the evaluation of plaintiff by said experts and  
grants 120 days for discovery. Attorney for defendant requested  
from plaintiff copy of the documents which he said he did not take  
into consideration in his report. Court grants plaintiff thirty  
days to supply them.
